Tires

Carpenter Rely Foam Fill Flat Proofing *(Specialty and Off-Road Tires Only)*
This flat proofing system delivers stronger performance than an industrial tire and more protection than an air-filled tire. By injecting two chemical compounds throughout the tire, costly air loss is virtually eliminated.

Retreads

Gatto's offers Goodyear and Oliver retreads for heavy truck applications that are specifically designed for over the road and pickup and delivery vehicles.

Complete Line of Tires

We offer a complete line of tires for heavy commercial trucks, motor homes, RV's, earthmovers, tractors, front-end loaders, forklifts and lawn mowers. A few of the brands we carry are Goodyear, Toyo, Kelly, Dunlop, Delta, Michelin and Solideal.
