

MilestoneMaintenance™ is a new program at Gatto's based on providing you with customized information about your particular vehicle at the exact number of miles it has been driven. **New car? Nearly new? Not so new? We can keep you rolling.** We can run a report that tells what the manufacturer recommends at any point in the life of your vehicle—that's good for your schedule and your wallet.

**Gone are the days when every vehicle is treated alike.** Ask for your personal preventative maintenance report at any of our seven stores. Now . . . we can be specific, which will help you maintain your warranty, give you a choice in prioritizing work and help you stage expenses.

At each of the "milestones" in your vehicle's life, there are items that should be inspected, replaced or serviced. **Do you know what they are? We do.**

Manufacturers sometimes need to correct a defect on a vehicle. They send out recall notices on these items. Did you get this notice? **Do you know what recalls have been issued on your vehicle? We do.**

Not so sure you have followed manufacturer's guidelines? **We'll be able to show you "catch-up" items that you may have missed.**

MilestoneMaintenance™ is a simple way to get the *peace of mind* that comes with knowing that you have done all you can to keep your vehicle in top shape.

**Thank you for being a Gatto's customer, and remember, as a valued member of our family you are eligible for . . .**
